Introduction to Forensic Accounting

 Thursday, November 5 2026 1:00pm - 4:30pm EST  Virtual 4.00 Credits  Member Price: \$219

You could pay \$0 for this course! Forensic accounting encompasses fraud investigation and prevention, as well as a wide variety of functions in litigation. Forensic accountants provide services ranging from serving as an expert witness, to litigation consultant and bankruptcy trustee. As our economy grows more complex, the need for forensic accountants grows as well. One critical role of the forensic accountant is exposing and examining financial fraud. Technology expands the way companies conduct business; however, technology also provides greater opportunities for those willing to commit fraud. Forensic accountants rely on their skills in accounting, coupled with their investigative skills, to explain to clients, courts, and jurors how fraudulent schemes occur and the effect caused by fraud. Forensic accountants also provide expert opinions in calculating damages in litigation and administering bankruptcy estates, as well as a host of other services. Massachusetts firms/companies with fewer than 50 staff can be reimbursed up to 100% of the cost of training and firms/companies with 50-100 employees can be reimbursed up to 50% of the cost of training. You must register for the course and apply for reimbursement through the Massachusetts Workforce Training Express Fund website a minimum of three weeks prior to the start of the course to be eligible. The course code for this program is C-11344. To learn more, [click here](#) or contact Julia Ekelund at jekelund@necpas.org.
